

August 5, 2010

Dear Parent or Guardian,

Under the federal *No Child Left Behind Act* (NCLB) of 2001, each state is required to assess all school districts to determine if each district has made adequate yearly progress (AYP) toward meeting the academic testing standards and additional measures set by the state. AYP decisions are based on the results of state testing in communication arts and math and the district's attendance rate and graduation rate. If the district has not made AYP for two consecutive years in any one of the four areas, it is considered "in need of improvement."

Based on the results of the 2009-2010 academic testing in communication arts and math and the district's attendance rate and graduation rate, the Moniteau County R-I School District did not make adequate yearly progress for the following reasons:

1. Only two of the six subgroups in Communication Arts and only two of the six subgroups in Mathematics met the state achievement goal. The district also did not meet the graduation rate goal.
2. The state achievement target for Communication Arts was 67.4% of the students and in Math that 63.3% of the students be proficient or advanced on the MAP test. The graduation rate goal was 85%. Because this is the third year of this designation, the district is considered to be in Level 3 of District Improvement, Corrective Action. We will evaluate and update the plan for improvement that has been developed. One important component of this plan is parent involvement in the implementation of the plan. The Missouri Department of Elementary and Secondary Education will review the district's progress toward meeting the goals and objectives of the plan and may impose additional sanctions.

You can also help by increasing your understanding of the assessment, understanding the importance of good attendance and graduating from school, visiting schools and becoming a volunteer, and engaging in reading and math strategies at home.

Information about *No Child Left Behind* and what parents can do to improve student achievement can be found at: <http://www.ed.gov/parents/landing.jhtml>.

Sincerely,

Marty Albertson
Superintendent
